MEMORANDUM FOR: Mr. Bill Moyers
The White House

SUBJECT: SNIE 11-11-65: SOVIET ATTITUDES
TOWARD THE US

1. The attached Special National Intelligence Estimate, written to your requirement as stated to me last Wednesday, received the formal approval of the United States Intelligence Board yesterday morning. In the event that the President is too short of time to read the entire document, I should hope that he would find the three short Conclusions of considerable interest.
2. Needless to say, the subject matter is one of most intense concern to the Intelligence Community, which will be keeping it under constant review.

(Signed) Richard Helms
